### i DESCRIPTION

The Champion 73120i portable inverter petrol generator is powered by an 170cc Champion single cylinder, 4-stroke OHV engine that produces 3100 max watts.

Champion Generators are in a league of their own with regards to engine technology and features. All Champion engines are designed, engineered and tested in the most demanding environments. These testing videos can be viewed on the Champion Power Equipment website.

With a 6 litre fuel tank this unit can run up to 8 hours at 25% load. Our OHV engine is equipped with a low oil shut-off sensor and designed for long life and easy maintenance.

This unit also contains true sine wave inverter technology making it safe to power all of your sensitive electronic devices. This unit is ideal for camping trips, hunting, travelling, picnics, and light jobs around the house. The built-in handle and wheel kit make it easily portable.
